CBM Singapore Newsletter

Dear Friends,

We, at CBM Singapore saw the verse (Proverbs 3:5-6) truly come alive as we saw God open doors of opportunities to reach out to children and adults. Trusting in the Lord with all your heart is often not easy as circumstances and situations blur the trust and make us turn to human reasoning and understanding

I, personally took another small step in trusting God with all my heart, as God opened the doors for us to go on two mission trips for Sunday school teachers' trainings - Kawasoti, Nepal and Yangon, Myanmar. There were two great challenges of firstly having to organise and plan, two trips a few weeks apart and secondly to get enough funding to take our team across; for me these were steps in learning to trust God. My understanding crept in to say it is too much but God kept promising through His Word that it was possible and what a promise - keeper our God is when we trust Him.

Many of you, put your trust in God and partnered with us and we saw many participants trained to reach the great harvest of children in these countries. We saw God's Hand in everything --- in practical matters of transport, safety, customs, funds as well as in much anointing in the training of teachers and ministry among children. What a wonderful God we serve! Yet we only give part of what we have but He gave all that He had, His Son, on that cross for us. ***The world needs the Saviour, my friends and especially the children --- the hope and future of every family, city and nation.*** We pray that our partnership in the ministry of reaching children, families and nations and seeing them experience abundant life will continue into 2010 and onwards.

Thank you for your encouragement and blessing that enables us to press on.

Have a Blessed Christmas & New Year

and say a prayer for the children of the world --- a prayer of hope that they will experience abundant life in the coming year.

We are blessed to be a blessing,

Vasanthi & CBM Singapore family.

‘Trust in the
Lord with all
your heart and
lean not in
your own
understanding.
In all your ways
acknowledge
him and he will
make your path
straight.’
